This is the End of the Spring Season! A: Interactions: Mosaic Level 1 Listening/Speaking Audio CD (6) Interactions [part 2]: This is the End of the Autumn Season! A: Interactions 2 Reading Answer Key Pdf What the question meant by "reading answer key" The Best Laid Plans: What Every Kid Needs to Know About Alcohol and Health Ask any family that has experienced an alcohol-related situation—like a child who is too young to drink or an adult who is unable to handle the effects of alcohol—and they will tell you that it is a mistake to serve alcohol to children. But as a guide for parents to use when raising children, the myths about alcohol and its effects on the body are not as benign as everyone would like to think. The fact is, alcohol consumption can cause a multitude of damage that children may not be old enough to understand. Yet if a child does see his or her parents consume alcohol regularly, the damage can be hard to mend when it comes to adolescent stages of life. This is why parents need to change their drinking habits before it's too late. Too Much of a Good Thing Parents cannot underestimate the power of alcohol on the young body, the constant observation that children are subjected to. Over the years, the negative effects of alcohol consumption have created the impression that there are dangers involved with any quantity of alcohol consumed by children. Despite some studies that suggest otherwise, alcohol consumption has been linked to a variety of health risks that adversely affect children. Recent trends in alcohol consumption have left their mark on the body as well. In particular, there is a rise in those who abuse alcohol without moderation, or those who already have health conditions and continue to drink. In these instances, it is easy to overlook the fact that alcohol consumption can cause multiple problems, from headaches to impaired vision. Kids and Alcohol is a Matter of Choice Whether it's the company of their friends, a night at the casino, or just a Sunday after lunch, it is easy for children to witness adults consume alcoholic beverages. The question that arises is why would a child even want to try drinking alcohol? The answer is simple: a child's desire to imitate their role models is hard-wired. You might as well ask why they want to
